

Research Security Training from CITI

Navigation Tips and Tricks

Module 1 Navigation

Be sure the progress bar runs all the way through on each slide and each clickable item on each slide. Otherwise, the “Next” button will not be active. In the example below, the learner needs to listen to the full narration and then click on each of the tabs on the left. In all cases, they need to ensure the progress bar runs all the way through.

Module 4 Navigation

The module includes a total of 10 knowledge check questions. Question 5 is the last question in Part 1 of the module. Once you have completed Question 5, click the “Menu” button to go back to the Menu screen. Then, you should begin Part 2 of the module.

Click Menu after completing Question 5
